## **THE 2006 CIVIC AND POLITICAL HEALTH OF THE NATION SURVEY**

### ***Questionnaire and Complete Tabulations***

Complete tabulations for the 2006 Civic and Political Health Survey (CPHS) are contained in this document. The 2006 CPHS, sponsored by CIRCLE, obtained telephone and web interviews of a nationally representative sample of 2,232 people aged 15 and older living in the continental United States. Tabulations in this document are shown for young people ages 15 to 25 (n=1,674) and adults 26 and older (n=547).<sup>1</sup> Interviewing includes over-samples of young African-Americans (n=296), Latinos (n=420) and Asian-Americans (n=184) ages 15 to 25. The survey was conducted by Princeton Survey Research International. Data collection was done via telephone and web by Braun Research, Inc. from April 27 to June 11, 2006. Statistical results are weighted to correct known demographic discrepancies. The margin of sampling error for the complete set of weighted data is  $\pm 3.5$  percentage points. The margin of error for the telephone sample (n=1,765) is  $\pm 3.6$  percentage points, and the margin of error for the youth sample of the survey  $\pm 2.6$  percentage points. We thank Jared Sagoff and Rafael Nieto for excellent research assistance.
